Applications made through Service Tasmania: **STaRS Code: MR2**

Amount paid _____ Receipt Number _____

Cashier (Initial & date) _____

Cost allocation: 2125.45.4612 (Application Fee)

Question One: Proposed Tour Based Activities

Estimated Number of Tours Per Year: _____

Estimated Number of Participants Per Tour: _____

Describe the proposed tour activities including transport to site(s), what minerals will be sought and the prospecting technique to be used. Attach extra page(s) if required.

[illegible]

Question Two: Identification and Proposed Management of Waste

Describe potential waste issues at the proposed site(s) with statement(s) regarding the consequent management of any identified issues. Attach extra page(s) if required.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

STANDARD CONDITIONS RELATING TO GROUP PROSPECTING LICENCES

1. A Group Prospecting Licence enables the holder of the licence to conduct group prospecting activities within areas allowed for prospecting. To determine allowed areas:
 - a. go to the [Mineral Resources Tasmania \(MRT\) Prospecting Access Map Viewer](#) by scanning the QR Code provided below, and
 - b. refer to information provided on the [Prospecting and Fossicking page](#) on the MRT website.
2. Prospecting on private property or existing mining leases, retention licences or exploration licences may only be conducted with the consent of the property owner and the holder of the mineral tenement.
3. Group Prospecting Licence holders must comply at all times with the Mineral Resources Development Act (1995) and the Mineral Resources Regulations (2016) and all Federal, State and Local legislation, codes of practice and conditions of use relevant to proposed activities and area(s) where prospecting activities are intended. Authorities include *Crown Land Services, Sustainable Timber Tasmania, Tasmanian Parks and Wildlife Service, Local Planning Authorities (Local Government), Transport Tasmania, Tourism Tasmania, WorkSafe Tasmania and Fairwork Australia*.
4. The holder of a Group Prospecting Licence does NOT have exclusive access to proposed site(s)
5. The holder of a Group Prospecting Licence is responsible for the actions of all participants on tours and must hold current Public Liability Insurance which is appropriate for the proposed activities at all times. Mineral Resources Tasmania reserves the right to request a copy of a current Public Liability Insurance policy at any time.
6. A prospecting licence issued by Mineral Resources Tasmania enables the holder to prospect for recreational or educational purposes only.
7. Only hand prospecting for material is allowed and only hand-held tools may be used.
8. The use of metal detectors is allowed anywhere that prospecting is allowed if you hold a current Prospecting Licence. Metal detectors are prohibited in designated fossicking areas.
9. The use of dredges, suction dredges, tromeels and motorised pumps is prohibited. If in doubt, check with MRT prior to use.
10. Hand held and un-powered sluices and high-bankers which are less than 1m in length and can be easily carried in the field by an average person, may be used. The use of motor and/or battery powered assistance is not permitted.
11. The use of any explosives is prohibited.
12. Prospectors are to conduct activities in a manner so as not to cause or aggravate soil erosion.
13. Excavation on any natural stream bank is not permitted. Banks must not be undermined.
14. Prospecting in roadside gutters, or extraction from road embankments, is not permitted.
15. All care is to be taken in the prospecting of materials and any diggings shall be restored to normal surface level before leaving the area.
16. No vegetation is to be cut or removed.
17. A person who finds a meteorite must deliver the meteorite to the Trustees of the Tasmanian Museum.
18. Discovery of mineral and fossil specimens not recognised as common should be referred to Mineral Resources Tasmania.
19. "Salting" of any area is prohibited in Tasmania unless it is performed in a controlled environment subject to relevant planning authority and Mineral Resources Tasmania approval. "Salting" is defined as the introduction of gold, precious and/or semi-precious stones into an area to increase the "find" ratio. If Salting will be a part of proposed activities MRT requires EITHER invoices/proof of purchase of salting materials OR a current mining lease.
20. No Aboriginal artefacts or site, or historic relics or site, are to be damaged or removed.
21. No speleothems (stalactites, etc.) are to be removed from caves, even if previously broken or not. Removal of speleothems is an offence and offenders can be prosecuted.
22. Excavation in any sinkhole in a karst area or within 10 metres of the entrance of, or within, any cave is not permitted.
23. Vehicles are not to be taken off formed tracks.
24. Local camping and fire regulations must be observed.
25. Mercury must not be used in prospecting to assist with the concentration, separation, and/or recovery of gold

Ensure you have downloaded the most recent version of this form from www.mrt.tas.gov.au
