## Changes to Mineral Tenement Reporting Requirements

Mineral Resources Tasmania has changed its reporting requirements. From Monday the 30th of March, MRT no longer requires mineral tenement reports to be submitted in hard copy format and will accept only digital copies.

Files must be virus and password/protection free. All report text and figures must be submitted in English. Core photographs, images and tabular data such as assay results and drilling data must also be digital. Details of the types of information, data required and accepted formats are specified in the new [Reporting Guidelines March 2020](#).

Reports must be submitted on Microsoft Windows-compatible media. Submissions should be addressed to the Director of Mines and emailed to [info@mrt.tas.gov.au](mailto:info@mrt.tas.gov.au) prior to the due date. If a report is too large to send via email, please deliver:

## Reports Made Open File November 2019 - February 2020

Mineral Resources Tasmania keeps exploration and mining records closed file (confidential) for a period of time defined under the Mineral Resources Development Act, 1995 (MRDA). Once that period expires (the MRDA specifies different conditions depending on the type of record) reports, data and other records then become open file and are made available to the public.

Nineteen reports became open file between November 2019 and February 2020:
