

LEGEND

GEOPHYSICAL INDICATIONS

- Self Potential Contours in Millivolts
- E₁ Strong Electromagnetic Indications (Slingram)
- E₂ Medium
- E₃ Weak
- Geochemical results in Parts per Million (ppm) Pb
- ▲▲▲ M Magnetic (Z Magnetometer) Anomaly
- Position of Lodes (Information from Tasmanian Mines Dept. Geological and Features plan of Mt Zeehan Mining Field)
- Probable Faults
- Strike and dip
- Old Workings (not to scale)
- Pit
- Trench
- Dump
- Adit
- Drill holes
