LONGITUDINAL PROJECTION-NICKEL REWARD WESTERN LODE

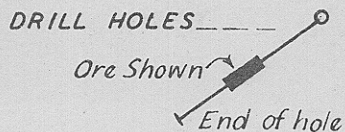

PLANE OF PROJECTION BEARS 7°30' MAGNETIC

0 40 80 FT.

N. B. IN NO CASE IS THE ENTIRE EXTENT OF STOPPING KNOWN. THE ORIGINAL DEPTHS OF THE NICKEL REWARD SHAFTS Nº1 & Nº2 ARE NOT KNOWN.—AT PRESENT THERE IS MUCH DEBRIS IN THE SHAFTS AND THE DEPTHS MEASURED MAY NOT BE CORRECT. DRILLING RESULTS AT NICKEL REWARD WERE VERY POOR SINCE MANY HOLES WERE DRILLED NEARLY PARALLEL TO THE LODE. FOR THIS REASON LODE INTERSECTIONS ARE OF EXAGGERATED SIZE AND CORE RECOVERY WAS POORER THAN WAS USUAL.

- STOPPING FROM Nº1 SHAFT.
- STOPPING FROM Nº2 SHAFT.
- OTHER STOPPING.
