WELLINGTON MINE

- QUATERNARY
- TERTIARY ?
- DEVONIAN
- Alluvium
- Basalt dyke
- Minor aplite dyke
- Minor pegmatite dyke
- Minor greisen vein
- Non-porphyrific biotite adamellite
- "In granite"
- Porphyritic adamellite
- Internal planar structure
- Line of intersection of internal structure with sub-horizontal plane
- Horizontal internal planar structure
- Joint plane
- Shear
- Approximate geological contact
- Road
- Jeep track
- Sample point for chemical analysis (see appendix)

DEPARTMENT OF MINES — TASMANIA	
GEOLOGY OF THE POIMENA AREA — BLUE TIER	
DATE	February 1967
GEOLOGISTS	D. Groves & G. Urquhart
DRAUGHTSMAN	P. Nankivell
REVISIONS
