KINGSTON

LEGEND

- QUATERNARY
    - Unconsolidated sands
  - TERTIARY
    - Basalt
  - JURASSIC
    - Dolerite
  - TRIASSIC
    - Knocklofty formation
  - PERMIAN
    - Jerntree formation
    - Malbina formation
- 
- 1 Outcrop
  - 2 Near outcrop or poor outcrop control
  - 3 No outcrop - mainly soil.
  - Approximate geological boundary
  - - - Inferred geological boundary
  - - - Fault - position approximate
  - - - Fault - position inferred
  - - - Strike and dip
  - - - Joint
  - - - Vertical joint
  - - - Diggings or quarry.

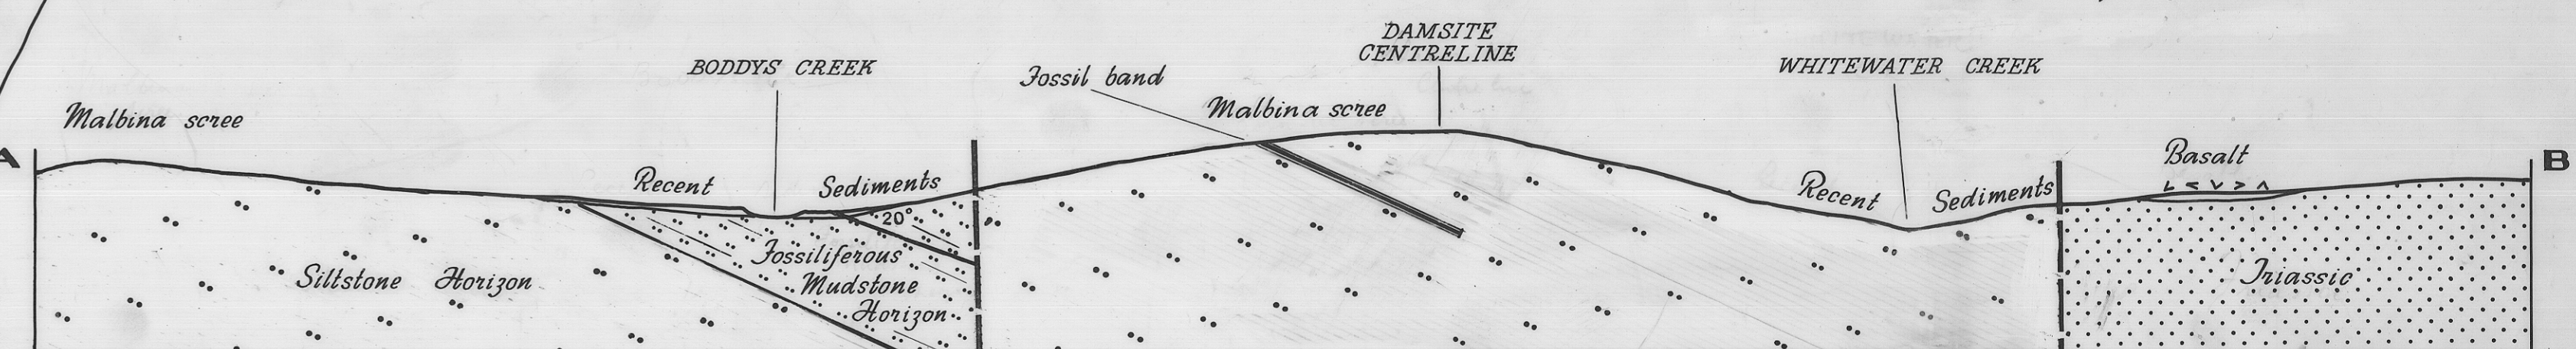

**Drilled Bore Holes**

- Vertical
- Angle and direction

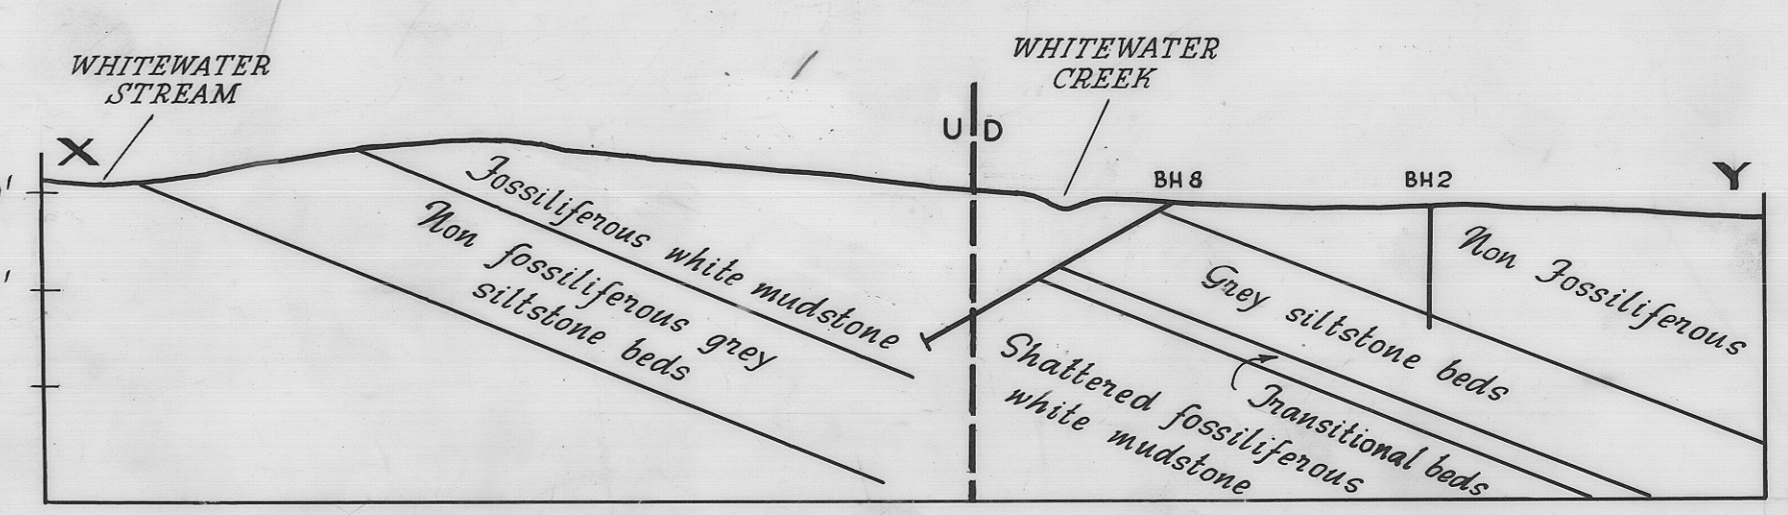

**Outline of dam**

- - - 130'
- - - 100'
- - - 60'

*N.B.* Whitewater & Boddys Creek positions and all outcrops located by tape & compass traverses.
