

DIAGRAMMATIC CROSS-SECTION

- QUATERNARY River sands and gravels
Alluvial deposits
- TRIASSIC Sediments Exposures
- JURASSIC Dolerite Exposures
- TERTIARY Basalt
- Talus - mainly dolerite boulders
- Recent slump
- Clay formed from metasomatism
- Geological boundaries
- Approximate geological boundaries
- Bedding dip and strike
- Joints
- Current direction
- Faults
- Auger holes
- Proposed damsite centre line
- Cliff face
