GROUNDWATER INVESTIGATIONS FLINDERS ISLAND - WHITEMARK AREA

Geologist W.L. Matthews

0 1 2 KM

- Roads
- - - Tracks
- - - Approximate geological boundary
- - - Form lines (after G. Everard) interval 100 ft.

- Bore
- ⊙ Well
- Waterhole
- Surface water sample locality
- ⑤ Test hole and number
- 27 Sample point number
- 1150 TDS (ppm)
- 6 Seismic spread and number

Geology based mainly on F. Blake, G. Everard, F.L. Sutherland; with some photo interpretation and additional information.

- Quaternary dunes
- Cainozoic deposits
- Tertiary basalt
- Basic dykes
- Granite
- Quartzite and slate
