

- Prospective water-bearing zone (sand or gravel)
- Clay with sand bands
- Clay with occasional sand bands
- Conglomerate
- Tertiary basalt
- Bedrock, rock type indicated
Jd1 = Jurassic dolerite
R = Triassic sediments
P = Permian sediments
- R6 Mineral prospecting hole
- IH6 Investigation hole
- AA-BB Section line
- Vertical scale 1:4 000
- Horizontal scale 1:100 000
- See appendices for detail logs
- See Figure 3 for hole locations
