# GEOLOGY OF NORTHERN SQUARES MARSH AREA AND LOCATION OF MAGNETIC TRAVERSES

0 500m

-  *Quaternary deposits*
-  *Triassic quartzose sandstone*
-  Ps *Permian marine siltstone and mudstone*
- Pb *Permian sandy granule conglomerate*
- Pj *Permian freshwater feldspathic sandstone*
-  *Jurassic dolerite*
- x *Proposed borehole*
- *Fault position approximate*
- Pj4 9 *Borehole with subsurface depth in metres to geological units indicated. Total depth given by lower figures*
