

- Pyroxene/plagioclase phyric and associated aphyric basalts: ○ Smithton area × Trowutta area
- Olivine phyric and associated aphyric basalts: ● Smithton area × Trowutta
- Field of tholeiitic basalts from Crimson Creek Formation and correlates, Dundas Trough (fig. 30a)
- - - Field of low-titanium basalts from the Dundas Trough (fig. 30c)
- · - · Field of high-magnesian andesite samples from the Dundas Trough (fig. 30d)

Fig. 38 : (Cr + Ni) ~ Ti discriminant diagram for basaltic rocks from within the Crimson Creek Formation correlates in the Smithton Basin
