

### LANDSLIDE ZONE MAP LEGEND

- |   |  |   |   |
|---|--|---|---|
|  | Areas with no likely slope stability problems        |  | Measured slope by abney level                 |
|  | Areas with likely slope stability problems           |  | Sharp break in slope, steeper side down slope |
|  | Areas too steep for conventional building and houses |  | Change in slope, steeper side up slope        |
|   |  |  | Gradual change in slope                       |
|   |  |  | Large dolerite outcrops                       |

N.B. Map and distances only approximate and blocks not pegged.
