

a Sandstone	g Black Shale	o Porphyry and Basic Dyke	Unformed Roads	⊥ Inclined Dip and Strike	Old dunes
b Limestone	h Slate	p Tillite	Geological boundary observed	○ Scout bore for mineral beach sands	Lagoon stream
c Laterite or Ironstone	i Breccia	q Quartzite	Geological boundary inferred	○ Submarine bar	Intermittent stream
d Volcanics	j Actinolite Hornfels	r Mica Schists and muscovite sillimanite schists	Fault observed	⊥ Sand beach shore reef	Swamp
e Altered Volcanics	k Biotite Actinolite Hornfels	s Siltstone	Fault inferred	⊥ Sand cliff	Slope in bedrock
f Agglomerate and Tuffs	l Biotite Hornfels	t Granite	Anticlinal axis	▲▲▲ Vegetated sand-cliff	Conical dunes
g Shale	m Pyroxene Hornfels	u Sand dune development boundary	Synclinal axis	⊥ New stranded shorelines	Direction of younging
h Spotted Shale	n Pyroxene Garnet Hornfels	v Formed Roads	Horizontal Dip and Strike	⊥ New dunes	Sandhills
i Grey mudstone	o Quartz		Vertical	⊥ Old stranded shorelines	Drains
