

LEGEND

QUATERNARY

Scree

CAMBRIAN

Quartz-feldspar porphyry intrusives

Back Peak Beds-volcaniclastic sandstone and siltstone

Sticht Range Beds-siliciclastic sandstone and minor conglomerate

PRECAMBRIAN

Quartz-mica schist with minor quartzite

Geological boundary-position approximate

Fault-position approximate

Fault-concealed

Bedding, facing unknown

Cleavage

Dominant foliation in Precambrian rocks

Rock sample number and location

Outline of aeromag anomaly from 1993 survey

Location of EM anomaly from 1980 Dighem survey
