Prospects in HW here and where posts dropped off? Access wanted.

Prospects of an lichen here grade doubtful. For retreating underground trial stoping. Leo Bull says was good grade in drive worth "containing" level.

NOT Acceptable Slope did not get through to 7 level. Nicholas and Kupstsky did this - ask them.

Good metal fault. X55500N  
 pencil = HW Branch, but could be both branches below. See X5  
 D.R. 40 x 27 x 60" = 400 Tons  
 All effectively stopped according to reports. But good blocks since located here (also show - see 57 DA)
