

From	To	Rock Type	Min/Alter	Description	Au	Ag	As	Cu	Pb	Zn	Ni	Cr
21				Drilling Trouble								
22	22			Pale grey silica with minor dark brown staining (water)								
22	23			Pale grey wuggy silica with minor dark brown clay								
23	25			wuggy grey silica with trace brown staining								
25	26			wuggy grey silica								
26	27			wuggy grey to pale grey silica								
27	28			AA with trace green/brown clay								
28	31		MnO	wuggy grey and pale grey silica with trace brown staining & MnO								
31	32		MnO	AA with minor black veinlets								
32	33			poor sample return. 70cm								
32	33		MnO	wuggy grey silica, black & brown stained silica trace MnO and dark brown clay usually associated with cavities								
33	35		MnO	minor chalcedony (brown)								
33	35		MnO	wuggy grey silica with brown staining & trace brown veinlets								
35	36			wuggy grey silica, brown silica & minor droplets in dark brown mud also black staining of silica								
36	37		MnO	wuggy greysilica; brown silica in dark brown mud, also black staining of silica								
37	42		MnO	AA with no brown silica, instead brown staining of (brown mud)								
42	43		MnO	wuggy greysilica with some black staining, some of it in brown mud								
43	44											
45	44			wuggy grey silica, minor veinlets trace droplets & minor dark grey silica								
44	45			grey silica and dark grey silica								
45	48			grey silica with minor silica veinlets.
