**1440DPI, 6-COLOUR &
62 INCHES WIDE....**

OEM printer manufacturer, MUTOH INDUSTRIES has released their 62" wide-format RJ-6000 printer.

The RJ-6000/62, pictured above at CeBIT, features 1440 dpi print quality & 6-colour support (HiFi & Hexachrome).

Now you can tackle the more demanding printing jobs : large-format reproduction of portrait photographs & fine art, hard proofs of 6-colour press printwork and prints with very strict colour requirements.

The RJ 6000 builds on Mutoh's current RJ-4100 series 36" 1440dpi printer, pictured right.

Supports over 200 devices including the most popular large format inkjets and photographic printers

CHOICE OF POSTSCRIPT RIPs....

WISP PS from Image Technologies supports over 200 print devices. Offers full Level3 support, ICC CMS with full HiFi and Hex capability, RIP Preview, Jigsaw inRIP Tiling, Remote Control.

PhotoScript Six from CADLink Corp. ICC CMS & HiFi/Hex support. Full Level 2 support, Remote Control. PC and MacOS versions.
