Comments:

Morning toolbox meeting with line prep crew.

Great day today, still long travel times but we managed to chain all the way up the Great western tiers on TB02-BA and look forward to an easier run across the top tomorrow.

Traffic management work well in this difficult section, many logging trucks and the start of the Easter traffic caused no problems. However it can possibly be more complicated with the main crew managing front crew, back crew and the vibes on the hill at the same time.
