Dear Sir/Madam,

RE: Exploration Licence Application 14/2009 – Formal Appeal

I refer to our EL14/2009 application submitted on 30 September 2009. Great South Land Minerals Ltd hereby formally appeals the decision made by the Director of Mines to intend to recommend to the Minister for Energy and Resources only part of our area of our EL14/2009 application.

Reason for Appeal: The Director of Mines has notified (and advertised) Great South Land Minerals Ltd of his intention to recommend a reduced area to Minister for Energy and Resources. The Director of Mines recommendation is contrary to the area that GSLM applied for in its application submitted on 30 September 2009 and a meeting held and minuted between GSLM and MRT representatives on 21 December 2009. The proposed area intended to be recommended to the Minister of Energy and Resources excludes over 80% of the prospective oil and gas bearing structures that GSLM has discovered over the past 10 years.

GSLM formally appeals the Director of Mines decision to recommend only part of EL14/2009 area to the Minister for Energy and Resources. The EL14/2009 application area should be issued in its entirety based of the prospective structures GSLM has already defined, previous work programs successfully completed over the past 10 years, proposed work programs over the next 5 years and over \$50 million invested already.

Should you require any further information, please do not hesitate to contact Paul Heath on (03) 6231 3529 or paul.heath@gslm.com.au

Yours Sincerely,

Malcolm Bendall
Chief Executive Officer
Great South Land Minerals Ltd
