Attention: Director of Mines

Dear Sir,

RE: Exploration Licence Application – Partial of ERA791 for Central Highlands, Northern Midlands and Southern Midlands Tasmania. Approximate area 4,144km² - Application B

Enclosed herein, is Great South Land Minerals Limited (GSLM) Exploration Licence Application for category 4 minerals (*Petroleum products except oil shale*) over an approximate area comprising 4,144km² encompassing Central Highlands, Northern Midlands and Southern Midlands Tasmania, parts of which fall within the advertised exploration release area (ERA) 791.

GSLM previously explored this area under Special Exploration Licence (SEL) 13/98 discovering 10 significant potential oil and gas bearing structures. These findings have established reason to deem the whole Tasmania basin to be prospective for hydrocarbons justifying further exploration and seismic testing.

Enclosed is a bank cheque # 509024 for \$1,632.00 for the application. We look forward to receiving advice of receipt, processing and approval.

Should you require any further information to meet your specific requirements, please do not hesitate to contact our office on (03) 6231 3529.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'David Bendall', is written over a horizontal line.
