AIRBORNE GEOPHYSICAL SURVEY

Total Magnetic Intensity

FLIGHT DATA

Nominal traverse line separation: 150m
Nominal tieline separation: 1.5km
Nominal data spacing along flight lines: 70m
Nominal terrain clearance: 50m onshore - 15 m offshore
Navigation and recovery using Motorola Mini-Ranger MRS-3
Aircraft: Australrex Nomad N 22 B
Magnetometer Type: Varian V-85 in stinger

Survey Date: August 1980

MAP DATA

Contour Interval: 20nT
IGRF subtracted prior to contouring

Survey data flown and compiled by Australrex International Ltd
Project management by Geopeko geophysical group

DRAWING NO: 5894 S/B
