

GOLD.

The first general meeting of shareholders in the Try Again Company will be held at the Mechanics' Institute, commencing at 7 30 o'clock this evening. The principal business will be the consideration of the balance-sheet and reports of the directors, and the election of three directors in lieu of Messrs Thomas Adams, James Barclay, and Adye Douglas, who retire but are eligible for re-election.

A telegram received by the manager, Mr F. H. Price, stated that the month's cleaning up of the Tasmania Company's battery took place yesterday, with the following result :—From plates and ripples, 1550oz amalgam; boxes, 2564 ditto; total, 4114oz amalgam. The usual cleaning up of the alluvial crushed at Messrs King and Eastman's battery also came off, the result being 309oz of amalgam. The telegram did not state the number of tons crushed. The cake will be retorted and brought to town to-day.

The cleaning up at the Victoria battery, Salisbury, took place yesterday. From a private source we learn that 270 tons of stone were crushed, which yielded 170oz of amalgam. The gold was not retorted last night.

Notice is given that unless the first call of fivepence per share, due on the 17th of October last, in connection with the Royal Sovereign Co., be paid on or before the 17th of November, the shares upon which the same remains unpaid will be liable to forfeiture.

Notice is given that unless the third call of sixpence per share, due and payable on the 17th of August last, on shares in the Rising Sun Co. be paid on or before the 7th November, such shares will be liable to forfeiture.

Application is made to register the Consolidated Chum Co., Lefroy.

A call, the first, of threepence has been made upon all shares held in the Ellangowan Co., Lefroy.

A list of shares forfeited for the non-payment of calls No. 2 to 4 inclusive, in the Deep Lead Co., is published. Unless the liability upon them is previously liquidated they will be sold by auction by Messrs Hartnoll and Ferguson on Wednesday next.

Mining managers report as under :—

BEACONSFIELD.

West Tasmania.—Oct. 27—I have driven 5ft for the week, and the country has been very hard. The total length of the tunnel is 450ft.

SALISBURY.

Victoria.—Oct. 27—Since my last report I have been extending the east and north-west drives. They are both in a better-looking country. They are both in a better-looking country. There is a little gold in both of these drives, and a good deal of pyrites. I have also been rising on the east and west wall, and I have got a little gold going up, also a quantity of galena. I have extended the cross-cut in the bottom tunnel 6ft since my last report. The country is getting harder. I think we shall be in to the stone that we had in driving the tunnel in a few feet more.
