

MINING NEWS.

GOLD.

The adjourned meeting of the Golden Tier Co. will be held at 3 p.m. to-day, at the office of Mr R. Rawson, when the principal business will be the election of a provisional committee, and to decide upon future operations. The personal attendance of shareholders is requested.

A call, the fourth, of £1 a promoter, has been made on all shares of the Rock Shaft Co., payable at Lefroy on or before Saturday next.

Notice is given that unless the fourth call of 6d per share, due in connection with the Pinafore Co., is not paid by the 15th inst., the shares upon which the same remains unpaid will be liable to forfeiture.

A call, the third, of 3d has been made on all shares held in the Land o' Cakes Co., payable on the 9th inst. Notice is given that all shares in this Company, on which the second call of 3d is due, will be forfeited should the call not be paid within 14 days from this date.

Mining managers reports as under :—

BEACONSFIELD.

Blyth's Freehold—Nov. 2—Since my last report we have reduced the water 1ft 2in. There are 2ft 4in on our well boards this morning. The faster the Florence gets out the water the more we find the benefit of it. I hope to have it well down by the end of the week.

Lefroy—Nov. 2—The contractors for the shaft started on Monday morning with nine men. The machinery is working well, and other work is progressing satisfactorily.

Kara Kara—Nov. 1—I started the shaft on the 17th inst., and it is now down 22ft. It is securely timbered, and I have also erected the blacksmith's shop.

BLUE TIER.

Pactolus—Oct. 31—I have driven 32ft for the fortnight, and the ground passed through has been very hard, with a little water making in the face. The heads are laying off very much to the south, therefore I think the reef is very close in that direction. I started to put in a cross-cut on Monday, 24th Oct., so I hope soon to be able to send a very favourable report.

LEFROY.

New Native Youth.—Nov. 2—There is about 2ft of stone on the southern wall, and about a foot on the northern wall with 4ft of mulloch between both bodies of stone, which is showing gold.

Pinafore.—Oct. 29—During the week there has been 15ft driven in the cross-cut, making a total distance from the shaft 206ft, the ground passed through being a hard sandstone.

being a hard sandstone.
